

VIDEO CONFERENCING EQUIPMENT

Due to the pandemic, business meetings involving travel have been put on hold. At Regent Singapore, we understand the importance of communicating face-to-face, and possess the latest video conferencing technology for you to do. This affords you the time to focus on better brainstorming, knowledge-sharing and information-gathering with your counterparts.

The possibilities for communications are endless.

Regent

EagleEye Director II

The EagleEye Director II camera will automatically frame and adjust the picture to focus on the active speaker without the use of a remote control or camera pre-sets. This seamless transition will ease up the requirement for a video administrator so that you may focus on your meeting.

- Eagle Eye Director II with 2 EagleEye IV cameras
- G7500 Codec system
- Tabletop microphone kit (up to 2 units of microphones)

Rental at S\$1,200++ per day

Poly X50

Thanks to the 8 million active pixels of the Ultra HD 4K, video quality has never been better. The incredible clarity combined with the Poly X50 will give virtual meetings a completely different dimension. This option also comes with the NoiseBlock AI, which buffers background noise, for an all-encompassing business experience.

- Poly X50
- A tabletop microphone kit

Rental at S\$800++ per day
