The history of tea is one of myth, song, and ceremony. For over two millennia, people have been steeping the leaves of the *Camellia sinensis* shrub in boiling water for health, celebration, and happiness.

As you read through our menu you will find our favourite tales of this amazing elixir, some learnings worthy of prose, and a bit of poetry. We pay homage to the traditionalists as well as underscore the modernity that keeps us on our toes.

Our tea ceremony is one of science and service. Finely tuned recipes precisely prescribe the water temperature and steeping times to ensure your cup exceeds all expectations of what the unassuming brew has to offer, delivering an experience that colours your memory as much as our teas paint your palate.

TEA

BLACKS AND BLENDS

Black tea, like all teas comes from the *Camellia sinensis*. Unlike all others, it is fully oxidised. Prized for its freshness over great distances black teas ended up fuelling an empire, building economies, and creating vast personal fortunes. Flexible enough to blend with fruits, oils and flowers; some are aged for decades like fine wines.

- SYDNEY SMITH, A MEMOIR OF THE REV. SYDNEY SMITH

TEA

THE OOLONGS

The Black Dragon tea of China was first discovered when a Fujian farmer returning home with a basket of tea leaves was distracted by a passing deer. Seeing an opportunity for a bountiful dinner he gave chase and his tea leaves were left to wither in the sun. Upon his return he noticed that his tea had begun to oxidise and not wanting to waste the tea he processed it as per custom. The resulting tea was neither green nor black, rather a beautiful partially oxidised creation that would become ubiquitous with tea for over a billion people.

TEA

GREENS AND WHITES

Prized and revered as the most refined of its kind, white tea lacks a clear definition. Some say it is the fine white hairs present on the young leaves before they bud, others the natural processing. Regardless, the resulting extraction is as delicate as it is delicious.

Clarity finally arrives with green teas, the un-oxidised leaves of the *Camellia sinensis* are withered, heated, and rolled before drying. The superfood of the tea world, green tea is prized for its antioxidants, which may aid in memory, cholesterol and skin health.

TEA

FRUITS, HERBAL TISANE AND ROOIBOS

Tisanes are the answer to the fact that tea does not grow everywhere in the world; technically not teas, these herbal concoctions are some of the world's oldest libations. From the bushes of South Africa to the orchards of Italy: dried fruits, flower petals, herbs, roots, and spices represent an entirely unique and enjoyable approach to infusing water.
